

1. Use the **2-color chip model** to demonstrate the following integer operations:

a) $-2 + 7 =$ _____

b) $8 - (-5) =$ _____

3. Use the **number line model** to demonstrate the following integer operations:

a) $5 + (-7) =$ _____

b) $-4 - (-5) = \underline{\hspace{2cm}}$

4. Use the **stack model** to demonstrate the following integer operations:

a) $-2 + -5 = \underline{\hspace{2cm}}$

b) $-5 + 6 = \underline{\hspace{2cm}}$
