

Fraction Addition & Subtraction      Name \_\_\_\_\_

1. Use the egg fraction model to demonstrate the following problems:

a)  $1/4 + 5/12 =$  \_\_\_\_\_

b)  $7/12 - 1/3 =$  \_\_\_\_\_

2. Circle whether each fraction addition problems is ready to be added (Add) or whether you need to find a common denominator (CD). Write the lowest common denominator (LCD) if it is needed.

$4/5 + 7/5 =$       add/subt      CD      LCD = \_\_\_\_\_

$3/7 + 5/14 =$       add/subt      CD      LCD = \_\_\_\_\_

$2/3 - 1/5 =$       add/subt      CD      LCD = \_\_\_\_\_

$6/7 - 3/7 =$       add/subt      CD      LCD = \_\_\_\_\_

$1/2 + 1/3 =$       add/subt      CD      LCD = \_\_\_\_\_

3. Complete the following fraction operations:

$2/5 + 2/5 =$  \_\_\_\_\_

$4/5 - 1/5 =$  \_\_\_\_\_

$1/8 + 3/4 =$  \_\_\_\_\_

$5/8 - 1/4 =$  \_\_\_\_\_

$3/8 + 5/9 =$  \_\_\_\_\_

$6/11 - 1/3 =$  \_\_\_\_\_
